

LEE
FWC of Serial No. 07/614,452

The above amendments are intended to obviate the basis for the Examiner's Section 112 rejection as set out on pages 6-7 of the action, beginning with the second full paragraph, page 6 and the objection to the specification at page 7.

The Examiner is urged to reconsider the Section 101 rejection of the claims and the Section 112 enablement objection to the specification. It is urged that in the context of the applicant's invention and considering the nature thereof, the disclosure is enabling and the invention should be accepted as useful.

Reconsideration is requested.

Respectfully submitted,
CUSHMAN, DARBY & CUSHMAN
